G&S File No 82 of 1912-13

Serial No 4

Resubmitted with the following note

In connection with the withdrawal of the special grant of 1 Lakh of Rs sanctioned last year for the expansion and improvement of primary educat the D of I submitted proposals for fixin a Revised Scale of pay for Vernacul School teachers at an extra cost of Rs 46,332 per annum But Govt in their order No 7086-J/G&S-257-12-2 of the 5th March 1913 observed that some im- provement in the pay Scale of pay of Vernacular School teachers was necessary and ordered that the questi should be dealt with Separately

In the D of I in his previ letter has pointed out the necessity for Revising the Scale of pay of Verna cular teachers as originally proposed by him the chief Reasons assigned are (1) It is not possible to Secure efficient teachers on the present Scale

NOTE—Contn sheet

GPB— 000—17 7 13

[I S 1_]

of pay (2) the fixing of a suitable scale of pay for the Vernacular teachers will give an impetus to primary education in the State

(11) The Inspection includes the following Schools

Anglo Hindustani Schools	maintained from State Funds
Taluk Kannada Boys Schools	
Taluk Kannada Girls' Schools	
Taluk Hindustani Boys' Schools	
Village Elementary Boys' Schools	maintained from the Village School Fund
Village Elementary Girls' Schools	
AV Schools in Villages	

12 (1) The Taluk Hindustani Girls' Schools are not taken into account in connection with the Revision, the Reason assigned being that they are few and are yet in an unsettled condition Perhaps it would have been better if the Inspt had included the Anglo Hindustani & the Village Anglo Vernacular Schools in his Scheme

Calculate & show below in a tabular form the average pay of a teacher of each class as per present scale and proposed scale, thus.

	class of schools as per D G's list	Average pay of a teacher as per present scale	Average pay of a teacher as per proposed scale
1	Anglo Hindustani S 7	14 11 6 p m	18 8 6
2	Taluk Kanada Boys' S 7	11-6 2 "	14-0-9
3	Girls' S 7	12 5 5 "	15-8-8
4	Taluk Hindustani Boys S 7	11-4-11 "	14-8 1
5	A-V schools (V S 7)	13 2 9 "	17-14-5
6	Village Elementary Boys V S 7	10-5-10 "	12 5 0
7	Girls V S 7.	11-13-2 "	14-12 3 "

The average cost should be found by dividing the total cost (including allowances) by the number of teachers]

35 The question of the capacity of the V-S Fund to bear the additional charge is not an important one. If primary education is to spread in the state the fund must be reorganized if it is kept on. It has reached its utmost capacity as it is now constituted — in fact exceeded it — and further addl. expenditure must fall on the State funds. There need be no

objection on that score.

16 But I very seriously doubt as to whether the very large increase of nearly Rs 8500 per annum is really necessary in raising the average pay of the teachers of the classes under consideration or that is the same the in securing a more rapid flow of promotion amongst them. Days are gone when literacy was rare and had a high mark value. Now a days such literary knowledge as a school master of the class under consideration need possess cannot claim to be on a higher level as regards earning capacity than an elementary practical knowledge of a craft or of agriculture cum with physical endurance. There is no reason why a village school master should be better paid than a village constable, a village postman, process servers of courts compounders vaccinators and a whole host of similar employees in all departments at the bottom of the scale. The DI. has not adduced any strong grounds in support of his proposal. The pay of schoolmasters until 1908 were considerably below Rs 10 in many cases and it was only in that year that the minimum was raised to

Only 6% of the people is literate!

Rs 10 throughout the State at a very considerable additional cost. The necessity of a wholesale measure in the same direction so soon afterwards is not apparent. Whether a higher type of men will be attracted to the schools as the result of the changes proposed is very doubtful. The raising of the standard of teaching capacity can be better effected by creating facilities for training at a portion of the cost now proposed. All that seems necessary ~~at~~ now is to rule that teachers in all these schools who pass through a certain course of training (for which some concession & facilities should be given) would get a small ~~increase~~ personal allowance. By that means we shall get better qualification for higher pay. According to the D.I.'s proposals we shall be spending nearly a lakh of rupees a year more without effecting any appreciable improvement in the standard.

Final Note by the First Member of Council

Subject - Revision of the scale of pay of Education officers

53

---

(1) The Inspector General of Education has submitted proposals for improving the pay and prospects of the school masters of (1) the Anglo-Vernacular schools maintained from Village School Funds (2) of the Anglo-Hindustani schools and (3) of the Vernacular Boys' and Girls' schools in the State excepting the Taluk Hindustani Girls' schools - affecting 3066 teachers and involving an annual additional expenditure of Rs 84729$\frac{3}{5}$ as against his first proposal affecting 3152 teachers and involving an additional cost of Rs 46332 per annum resulting in an increase over the first proposed scale by Rs. 38397$\frac{3}{5}$ or Rs 38000 in round figures

(2) This increase of Rs 38000 in spite of a reduction in the number of teachers by 86 is due to the creation of new grades carrying higher rates of pay and putting a very large number of teachers in those grades The exclusion of 86 teachers

teachers in Taluk Kannada Girls' Schools is due to the exclusion of middle schools at District head quarters for -- which separate proposals have been sent and considered the chief increases are under Village Elementary Boys' Schools (28 000 odd) and Village Elementary Girls' Schools (4 000 odd) The other increases are comparatively small

(3) In Village Elementary Boys' Schools the number - of teachers (2 200) is the same as that originally proposed by the Inspector General but the increase in cost per year is Rs 51 468/- as against Rs 23 148/- according to the - first proposal This item alone accounts to an increase of Rs 28 284/ The scale originally proposed for these schools was 44(20) 220(15) 528(12) and 1408(10) The scale now proposed is 50(25) 50(20) 500(15) 600(12) and 1 000(10) This change has improved the condition of 408 teachers who were - originally proposed to get a salary of Rs 10/

(4) Again in Village Elementary Girls' schools only one additional teacher is proposed but the difference in the increase of cost per year is Rs 4 224 The scale originally proposed and that now proposed being as follows -

Original scale - 5(20) 18(15) 53(12) and 102(10)

Scale now proposed - 10(25) 20(20) 30(15), 50(12) and 69(10)

(5) We are dealing with a large class of public servants and the increase of Rs 84857/- though large is not disproportionate for their number The proposals of the Inspector General involving an yearly increase of Rs 84857/- may be sanctioned without any reduction and brought into effect from the beginning of the next quarter We may rule that unpassed men should ordinarily not get more than 10 Rs and untrained men more than 15 Rs

Submitted to His Highness

54 A

(1) I submit herewith a Final Note by the First Member regarding the revision of the scales of pay of the teachers in the Elementary and certain Anglo-Vernacular Schools in the State, involving an additional expenditure of Rs 84,857 per annum

Pages 14 to 16 of Office note

(2) The Financial Secretary is not in favour of the proposal The Minimum pay of School Masters throughout the State was raised to Rs 10 in 1908 and the Financial Secretary states that there is no necessity for a wholesale revision, such as the one under reference so soon He is of opinion that what is necessary now is to rule that teachers in all these schools who pass through a certain course of training would get a small personal allowance and to create necessary facilities for their training

Para 36, Page 16

(3) The First Member states that as we are dealing with a large class of public servants numbering 3066 the increase of Rs 84,857 though large is not disproportionately so and that the Inspector General's proposals may be sanctioned without any reduction He adds that it may be ruled that unpassed men should not ordinarily get more than Rs 10 and untrained men more than Rs 15

Para 5 of the Final Note (A)

(4) The State has embarked on a policy of expansion of primary education and large sums have been sanctioned for increasing the number of primary schools All these measures will be very ineffective unless the quality of the teaching agency is improved by higher pay and better prospects If trained men are to be employed in these schools, they should have something better to look forward to than the minimum pay of Rs 10 The Inspector General has therefore proposed the creation of new grades carrying higher rates of pay and has put a large number of teachers in these grades

EEw 82-12 27

(5) There is provision for this extra charge in the current year's budget and the recommendations of the First Member have been agreed to by the other Members of Council The proposals may be graciously sanctioned

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 11164 / 623 Enc 2

Bangalore 29th March 1913

From, Shama Rao Esq I A
Offg Inspector General of Education in Mysore

To C S Balasundaram Iyer Esq B A
Secretary to the Government of His Highness the Maharaja
of Mysore Departments of Education &c Bangalore

Sir

With reference to the observations contained in para 6 of the Government Order No 7080-7/Edn 251-12-2 of the 5th March 1913 I have the honour to submit for the reconsideration of Government my proposals contained in paras 11 12 and 13 of my Memorandum sent to Government with my letter no 8518/463 dated 1st February 1913 and in doing so I beg to thank the Government for agreeing with me that an amelioration in the prospects of the masters referred to is needed Unless the rates of pay are revised there is no hope of securing better men of efficiency and thereby improving the quality of the education imparted at present for want of suitable buildings no more schools can be immediately opened and we have also to wait till the results of the next Public Examinations are declared for securing the required number of teachers In the meanwhile the improvement of the prospects of the masters is a pressing necessity and I have therefore ventured to resubmit my proposals for the favourable consideration of Government in the hope that an impetus will be given to primary education by the prospect of its early sanction

2 In this connection I take the liberty of inviting the atten-

attention of Government to the action already taken by the Government of Bombay, the Punjab and Cochin where a higher scale of pay is provided for trained teachers and teachers in Primary schools than is provided in this State In Bombay the minimum pay of a trained teacher is Rs 12 if he is employed as a Head Master and Rs 11 if employed as an Assistant In the Punjab, the minimum pay of a trained Head Master of an Elementary School is Rs 15 and that of an Assistant is Rs 12 In Cochin the following is the scale provided for teachers in Vernacular Schools for boys -

Primary Department	Grade I	Rs 8-10
	II	10-12
	III	12-15
	IV	15-18
	V	18-20
Lower Secondary Department	Grade I	20-25
	II	25-30
	III	30-35

3 The Director of Public Instruction in Madras in his Report for 1911-12 observes that, in his opinion, nothing would conduce more to the improvement of elementary education than a substantial increase in the pay of teachers

4 It will be noticed that in comparison with the above scales the scale proposed by me is a very moderate one and I venture to hope therefore that it will receive early sanction

5 A detailed statement showing the modifications proposed appended

I have the honour to be

Sir,

Your most obedient servant

Ramachandra Rao

Offg Inspector General

Extract from the Memorandum of the Inspector General of Education on the expansion and improvement of ~~the~~ primary education in the Mysore State

3

---

11 Then again it has been found that the progress of Primary education is much impeded for want of sufficient encouragement to the masters doing efficient or meritorious work Many of the masters of primary schools have been without any promotion for the past several years and at present regard the future with blank despair Their claims for promotion are legitimate but for want of a fairly definite scale it has not been possible to satisfy their requests though made with growing clamour The practice now in existence of inviting proposals annually from the Inspecting officers for promotions to masters has been periodically a cause of recurring hopes and disappointments for the masters and is associated with considerable demoralizing effect To avoid such periodical unrest an attempt has now been made to lay down a scale on rates of pay varying from Rs 10 to Rs 20 for rural and other teachers and hereafter it will only be necessary to increase the number in each grade on a basis of percentages to be settled after the present proposals are sanctioned as new schools come into existence and as new hands are entertained

12 A reference to the accompanying statement III will sho that out of 2941 existing teachers no less than 2420 are getting only Rs 10 I have with my letter No 2479/136 of the 28th August 1912 submitted proposals for fixing a scale and grading the pay of the masters employed in Colleges High Schools Anglo-Vernacular schools maintained from State Funds and of the Inspecting officers In my present proposals a similar attempt has been made for the 10 Anglo-Verracular Schools maintained from Local Funds 6 Anglo-Hindustani Schools and for the Vernacular Boys' and Girls' schools excepting the Taluk Hindustani Girls' Schools which are now in a somewhat unsettled state and which can only be taken up after an Inspectress is appointed Including the 141 teachers for 141 schools to be newly started as stated in para 5 and 73 additional hands required for the existing schools as mentioned in para 7

the

the total number of teachers comes to 3175 and these are proposed to be distributed as shown in statement IV

13 The aggregate additional expenditure which the proposed revision entails is distributed as follows -

	Per annum
(1) Village Elementary Boys' Schools	Rs 23 184
(2) Village Elementary Girls' Schools	Rs 2 100
(3) Local Fund Anglo-Vernacular Schools	Rs 1 896
(4) Anglo- industani Schools	Rs 1 620
(5) Taluk Kannada Boys' Schools including Panchama Schools	Rs 5 735
(6) Taluk Kannada Girls' Schools	Rs 5 352
(7) Taluk Hindustani Boys' Schools	Rs 6 444

This additional outlay is necessary to fix a scale once for all for the existing teachers so that they may do good work with contented mind and also in order to retain permanently men of higher qualifications in the service of this Department It may be stated that hitherto no systematic attempt has been made to fix a regular scale of pay and let each master know his exact position among his compeers
